

Kiosks

Product overview

Fully integrated with Zonal's digital ordering management platform, our kiosk integration provides you with a flexible solution to help reduce queues, speed up service, and meet guests' demands for convenience with quick and easy ordering journeys. Available through select hardware partners.

Built for omnichannel

Orders are seamlessly pushed to Zonal's EPoS, flagged as kiosk orders, and distributed to the relevant location for fulfilment with no additional input required from your team.

Robust reporting

Data from our kiosk integration is collated with our wider reporting suite, providing you with accurate data for easy comparison, including stock depletion, to maintain a single source of truth.

Flexible menu deployment

Different menus can be applied based on time, trading area, or location, allowing for flexibility when incorporating kiosk ordering into business operations.

Unified ordering journeys

Utilise your existing product configurations, ensuring consistent ordering journeys regardless of which ordering channel the guest is using.

Centrally managed product data

Tight integration with our digital ordering infrastructure means all aspects of your digital menus can be managed in one location and deployed seamlessly across all channels.

The self-service kiosk was a new concept for us at Waterside Holiday Group, so it was key we found the right partners to implement this. From the initial enquiry to the installation of the kiosks, menu build, team training, and finally the ongoing support since going live both App4 and Zonal have proven we made the right choice."

Neil Quantrill
Head of Retail
Waterside Holiday Group

Why Zonal

Zonal is the UK's no.1 hospitality tech provider, serving over 17,000 businesses to enhance efficiency, manage costs, and increase revenue. Our seamlessly connected tech ecosystem provides our customers with unparalleled operational control and insight, while over 200 integration partners give customers the flexibility to create their ideal tech stack.

Begin your Zonal journey.
