Product overview

Build accurately costed menus, better manage nutrition and allergen information, and streamline your recipe creation processes with Zonal's easy-to-use online menu management tool. Menu Manager takes the hassle out of managing complex menu changes, with seamless integration to Zonal's EPoS and wider suite of technology meaning any changes made are published in real-time across your business.

Why Zonal

Zonal is the UK's no.1 hospitality tech provider, serving over 17,000 businesses to enhance efficiency, manage costs, and increase revenue. Our seamlessly connected tech ecosystem provides our customers with unparalleled operational control and insight, while over 200 integration partners give customers the flexibility to create their ideal tech stack.

Manage your product data

Manage ingredient, price, nutrition, and allergen information in one system, with CSV format uploads available for bulk changes.

Recipe builder

Cost recipes, generate recipe cheat sheets and preparation cards, and report on nutrition and allergens contained within every recipe at an ingredient level.

Sales analysis

Menu Manager can provide a suggested retail selling price of dishes based on a given cost percentage or GP percentage.

Menu analysis

Forecast and model menu revenue using historical data, identify profitability variances to help maximise margins, and even model your menu using newly sourced ingredients prior to updating your database.

One source of truth

Menu Manager is natively integrated with our EPoS and wider tech suite, providing an exact match between your sales and stock data to ensure menu modelling integrity, as well as allowing you to align your purchasing and stock data to help with waste reduction.

Begin your Zonal journey.
