

Mobile Stocks

Product overview

Seamlessly integrated with Zonal's EPoS and full inventory management suite, Zonal's Mobile Stocks solution will help you streamline your stock taking process by facilitating stock counting from a mobile device. Eliminate the need for manual count entries and printed count sheets, making stock taking easier, quicker, and more accurate.

Built for efficiency

Switch between unit and pack size per product to reduce manual calculation, combine counts from multiple locations, and even allow counts to be completed by multiple stock takers.

EPoS integration

Counts completed on Mobile Stocks are directly imported into Zonal's EPoS, eliminating the need for manual re-entry and ensuring data accuracy.

With an accurate view of stock and wastage, we are now building an action plan to improve gross profit across the estate."
