Product overview

Add targeted, effective promotional vouchers to your marketing toolkit. Zonal's Voucher Manager is a flexible solution enabling you to increase visit frequency, boost customer spend, or even re-engage guests you may not have seen for a while. A streamlined redemption process means minimal training is required for staff, with automatic prompts at the point-of-sale guiding staff through the process.

Integrated redemption

Full integration with our EPoS, handheld ordering, and online ordering solutions enables seamless redemption of vouchers at any point-of-sale. Voucher codes can be redeemed against a payment method, discount, or promotion.

Flexibility & creativity

Voucher codes can be numeric or alphanumeric, allowing you to be creative with your codes. Configurable redemption rules allow you to control the exact days, times, and venues vouchers can be redeemed in. Vouchers can be single use or multiple use.

Printed or electronic

Unique voucher codes can either be printed or sent electronically for convenience and ease of redemption.

Fully customisable

Design your vouchers to fit in with your brand, providing a consistent journey for customers and increasing their effectiveness.

78%

of consumers either expect – or would like – to receive _personalised_ discounts and deals from hospitality venues.

GO Technology: Make it personal
