

Dimensions+

Overview

Dimensions+ offers a new way to view and analyse all your EPoS and business data in one single view.

Complementing the Dimensions reporting module that comes as standard to Zonal's EPoS solution, Dimensions+ integrates with Power BI to bring your EPoS data to life with bespoke views and dashboards.

Avoid time wasted logging into multiple platforms, as Dimensions+ gives you one version of the truth, combining a variety of different data sources such as your accounting systems, payroll and customer feedback in one platform.

Quickly identify trends and areas that require immediate action, view all aspects of your EPoS data, track KPIs, compare year on year sales figures and map your brands' performance.

Unlike other reporting providers, Dimensions+ is supported by Zonal's help centre and same-day set-up means you could be viewing your business analytics within hours.

Features

- » Full integration to Zonal's EPoS solution
- » Combine different data sources, such as accounting systems, payroll and customer feedback all in one platform
- » Create and develop easy-to-use dashboards
- » Easy-to-understand graphics for visual representations
- » Daily updates
- » Accessible on PC, tablet or mobile
- » Same-day set-up
- » Unlimited users
- » 1 Pro Power BI account required
- » Available for a flat monthly fee

Dimensions+ is extremely intuitive and mines data quickly, so that we have more time to focus on our business. The old adage 'a picture speaks a thousand words' relates to Dimensions+ as it does the same thing for spreadsheets, transforming data into a graphic, which is great to share with employees. It's a game changer!

Jonathan Grenville-Grey
Operations Director, Snug Bars

Benefits

View and analyse real time EPoS data and business data in one single view

Track KPIs, compare year on year and map performance across your different brands

Cost-effective and easy-to-use

Significant time savings from having to collate data sources and produce reports manually
