

Gift Cards

Overview

The gift voucher and gift card market are big business in the UK, worth around £5 billion per year, with annual sales increasing year-on-year.

Zonal's Gift Card solution enables you to claim your slice of the market and attract brand new customers to your venue as consumers buy a pre-loaded gift card for their family and friends. Tight integration with Zonal's EPoS ensures hassle-free redemption at the point of payment, providing you with a new revenue stream.

Swap your paper-based credit or refund programmes which can be operationally complex, for a smart EPoS-integrated gift card solution - saving you costs and relieving operational headaches.
