

## Integrated Payment Systems

### Overview

With customers demanding faster service – and in particular a quicker finish to their meal – payment has become a crucial part of the customer journey. Research shows that your customers' time is the most precious commodity of all, which means they expect a fast and reliable payment solution.

Zonal's card payment system (ZCPS) allows you to take payments at the table and at any point-of-sale. It simplifies the payment process, quickly and efficiently enabling you to turn tables faster, streamline your processes, reduce operating costs, and maximise your revenue potential.

Fully integrated with Zonal's EPoS system, our Card Payment System eliminates the need to re-key amounts, providing an overall quicker processing time.

### Features

- » Close off a tab and complete payment on one device
- » Secure processing
- » Gratuity handling
- » Audit system that verifies all transactions
- » Cashback functionality
- » Contactless payments for rapid transaction processing
- » Cardholder not present option
- » Apple and Android pay enabled
- » Pennies charity donation feature
- » Integration with Zonal's EPoS solution

### Pay at table

- » Print a bill
- » Make a part payment
- » Add a gratuity
- » Print EFT slips and payment receipt at the table via the payment device
- » Automatic account closure once the account balance has been paid in full

The Pennies Charity Donations enables you to offer prompts for micro donations to your chosen charity, giving your customers the option to donate a few pence to charity when paying by card
